Dear Mr Joy

Langrickgate Lane, East Cottingwith

I refer to your e-mail dated 12 March 2016 regarding the above.

All roads and footways within the East Riding are subject to inspections by a variety of methods all of which are used to form the forward programme of improvements.

The process involves determining the most appropriate treatment for each road and footway, following the prioritisation of the actual lengths based upon deterioration, and then allocating funds accordingly until the budgets are spent.

Unfortunately there are no major works planned for East Cottingwith however I have asked that an Engineers Request form be completed for both Langrickgate Lane and the northern section of Ballhall Lane. These often improve the 'score' of the road and move them up the prioritised list.

In the meantime our programme of cyclical safety inspections will continue and any defects that exceed the tolerances to which we must work will be scheduled for repair.

Yours sincerely

John Harland
